Safety At Your Fingertips With In-Home Care Technology Solutions

Today's seniors want to be independent and live in their own homes, but nothing is more important than their safety. *SafetyChoice*® in-home care technology solutions complement our in-home care services with around-the-clock monitoring. Whether aiding in response to an emergency or delivering helpful medication reminders, *SafetyChoice* ensures help is always at hand.

Suite Of Technology Solutions

Personal Emergency Response System (PERS)

The *SafetyChoice*® PERS ensures help is always on-call. With a simple push of a button—on a console, pendant or wristband—a response professional at the Central Monitoring Station will answer the client through the two-way PERS and dispatch the appropriate help.

Medication Solutions

The *SafetyChoice* TabSafe Medication System offers a safe and affordable way to ensure the right dose of medication is delivered at the right time.

24-Hour Monitoring

Caring professionals are ready 24 hours a day to respond to alarms received through our clients' *SafetyChoice* in-home technology devices.

a *sodexo* brand

PERS Accessories

We offer a variety of additional technology solutions to accompany your PERS, including door & window contacts, a help button, pressure sensitive floor mats, smoke & CO² detectors* and wireless cameras.

*Not available in all states.
